BEAUTY MEETS THE BEAST

The new Musso is an enviously stylish pick-up with road presence to spare. And one thing it's certainly picking up is tonnes of praise.

It's no wonder. It's a big, bold, uncompromising beauty.

Discover a versatile pick-up with giant-sized muscles. With a striking front-end that commands attention and dynamic character lines that sweep across to an eye-catching yet practical rear.

Its luxurious interior offers a level of comfort and tech that would feel at home in a luxury SUV.

The bold exterior conveys the confidence you'd expect from a car designed to be strong from the ground up. Based on a robust

body-on-frame with ultra-strength steel, the Musso is built using the same powerful platform as the SsangYong Rexton – 4x4 Magazine's 4x4 Of The Year 2018.

This mighty physique anchors an impressive 4-wheel drive system that enables exceptional

off-road ability, performance and safety.

It's a physical prowess that few can match – Musso has a 3.5 tonne towing capability and can carry over a 1-tonne payload at the same time – the only pick-up that can achieve this!

And, it's the only pick-up tough enough to come with our best-in-class 7-year or 150,000 mileage warranty.

But then, it is made by SsangYong – we're the Korean 4x4 specialists with over 60 years of experience. What else would you expect?

EXTERIOR STYLING

Some cars simply grab attention, drawing glances from every direction. Musso is this rare beast, at home in any environment, quietly radiating power and energy.

Painstaking attention has been given to every detail of the external styling, creating a formidable urban creature.

Musso features:

- A strong and wide front end with attitude
- LED daytime running lights*
- Sporty fog lamps
- Side character lines and styling
- Rugged roof bars**
- Door mirrors with LED directional flashers

Pick a Saracen, and you'll also find bright finish sidesteps, door mirrors, door handles and a front skid plate.

Musso is modern, stylish and makes a big statement.

*Saracen. **Rebel and Saracen.

HAVE IT ALL

Driving a pick-up isn't supposed to make you feel this good inside. But why skimp on interior style? We certainly haven't. The interior of the new Musso has been designed to offer a level of quality and comfort you'd expect from an SUV, not a pick-up.

Jump in to discover electrically adjustable seats* in the front for you, and substantial leg room and recline in the rear for your passengers. You want the best of both worlds, without compromise; we made the Musso so you don't have to choose.

*Saracen only.

TAME THE ROAD

Musso has excellent NVH levels, with aerodynamics tuned by Pininfarina and features like quad layered door sealing, a tightly sealed engine bay, custom designed engine and body mounts and PET fabric wheelarch liners; it is truly impressive. That means whatever life throws at you, you're getting there in comfort and style.

SIT BACK AND RELAX

With clamshell doors for ease of access in the front and back, plus loads of room to stretch out, every journey will mean relaxing in style. Musso has more leg and shoulder room than any comparable pick-up, meaning you and your passengers can recline in comfort. With a rear space this roomy, you might just have trouble getting people to leave.

INFOTAINMENT

A smart and intelligent choice. That's exactly what the new Musso offers you. Get comfortable and discover three advanced state-of-the-art infotainment systems.

All models come with a DAB radio and Bluetooth connectivity as standard, plus 6 surround-sound speakers for a brilliant sound.

Rebel features an 8" screen with a rear-view camera plus Apple CarPlay and Android Auto to connect to your smartphone.

Upgrade to Saracen and you'll enjoy all of the previous system's benefits, plus a 9.2" HD touchscreen with TomTom navigation built-in. So your passengers stay entertained and you stay on track, no matter where you go.

PUSH BUTTON START

The keyless start system works when your key fob is within the vehicle. Leave it in a pocket or handbag, just push button to start – it's the most contemporary and convenient way to start your car.

REAR CAMERA

When you're in such a powerful and imposing car, it's important to stay in control at all times. Especially when it comes to reversing and tight manoeuvring; that's why the Musso comes with a rear view camera that feeds to your screen to see where you're going.

You've got a job to do, and now you've got the tools to make sure you do it perfectly every time.

HEATED STEERING WHEEL

The new Musso is full of touches you'll appreciate, especially the steering wheel.

It's shaped to give a firm grip in all conditions, giving you fingertip control of your infotainment system, phone and cruise control.

Best of all it's also heated to give you warm hands on the coldest of days. And it'll feel perfectly placed – with both reach and rake adjustment* you can customise your driving position with ease.

*Rebel and Saracen.

SEAT FUNCTIONS

There's plenty of room to seat five passengers comfortably, with either TPU leather look or soft-textured nappa leather seats that are heated front and rear.* So even on the coldest winter morning you can feel supremely comfortable. Plus don't melt on a hot day either; simply turn on your front seat's cooling setting and relax.**

*TPU leather look heated front in Rebel; nappa leather heated front and rear in Saracen. **Rebel and Saracen.

WE SPEAK 4X4

At SsangYong, we don't just understand 4x4, we're fluent in it. As specialists with over 60 years of 4-wheel drive experience, the new

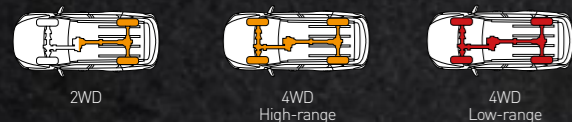

Musso draws on everything we know about advanced 4x4 technology.

Its selectable 4-wheel drive system is reassuringly capable, whatever the need, whatever the weather.

A CAR FOR ALL SEASONS

For greater efficiency and fuel-economy, our electronic vehicle control systems feature a selectable 2-wheel drive option with power delivered to the rear wheels for normal road use.

4-wheel drive can be selected electronically to add assurance in slippery conditions.

When the going gets really tough, simply switch to low-range which splits the torque equally between front and rear axles to provide all-round traction and ensure optimum grip to master even the most demanding terrain.

HILL START ASSIST

Rolling backwards during a hill start is a thing of the past with the new Musso.

In these kinds of situations, its Hill Start Assist feature acts as an automatic handbrake and is a great ally to have on your side when driving in tricky conditions or when towing.

HILL DESCENT CONTROL

The new Musso also helps you stay in control when you find yourself driving downhill.

Hill Descent Control can be activated at low speeds when the vehicle is handling a steep downhill drive and automatically controls the rate of descent.

POWERTRAIN

We've already established Musso offers the best of SUV comfort and the very latest modern design. But what about the heart that fuels this fearless beast?

The SsangYong manufactured turbo diesel engine makes it highly efficient and yet remarkably quiet.

This 2.2 litre Euro 6 engine delivers maximum power of 181PS at 4000rpm and maximum torque of 400Nm at 1,400-2,800rpm.

6-speed manual transmission, or 6-speed Aisin automatic transmission, the new Musso offers a choice of either. And both offer gear changes with world-class durability and smoothness.

PAYLOAD

Keep calm and carry... whatever you want; the new Musso can handle anything you throw at it or into it.

The surprisingly generous load deck will take 1,011 litres of cargo with a payload of 1065kg*, and is large enough to carry a full-sized Euro pallet.

The loadbed comes equipped with a 12V/120W outlet to plug your power tools into and has tie-down points to strap down loads, stopping your gear sliding around.

The loadbed has easy access via the wide opening tailgate, and with a width of 1570mm and a depth of 570mm, it offers impressive space – deeper than any other pick-up loadbed on the market.

*Manual transmission.

TOWING

The real strength of the new Musso is its real strength. An extremely tough ladder chassis enables the vehicle to provide a substantial towing platform. In fact, it can tow 3.5 tonnes* and carry more than 1-tonne at the same time.

It's a unique capability that means the new Musso can offer you unrivalled muscle and flexibility. And Musso's selectable 4x4 provides optimum traction in all conditions. You wouldn't want to get in a tug-of-war with this champion weightlifter.

*Automatic transmission.

TOTAL LOAD CAPACITY

Most pick-ups can't tow a trailer at maximum weight and carry a full payload at the same time, but Musso isn't most pick-ups.

With a class-leading gross train weight of 6450kg (manual) and 6750kg (automatic) our Korean beast has the highest total load capacity of any pick-up on sale in the UK.

Here are some figures that are sure to impress:

	Man	Auto
Gross train weight (kg)	6450	6750
Gross vehicle weight (kg)	3250	3250
Towing limit (kg)	3200	3500
Payload (kg)	1065	1055
Total load capacity (kg)	4295	4585

STRONG YET SAFE

Musso may be a seriously strong pick-up truck. But it drives with the comfort of the latest SUV; with 6 airbags included for the highest possible safety. Bumps in the road are no match for double-wishbone front suspension with rear mounted coils.

Whatever the terrain, you can rest assured of the smoothest ride.

When it comes to strength, Musso can't be beat; a quad-frame body made with ultra-strength steel gives it a reassuring rigidity. In fact, 79.2% of the body-chassis is high-density, high-tensile-strength steel.

ELECTRONIC BRAKEFORCE DISTRIBUTION ANTI-LOCK BRAKE SYSTEM

EBD-ABS distributes brake force appropriately to the front and rear wheels according to the vehicle's load of passengers and/or cargo.

ELECTRONIC STABILITY PROGRAMME

ESP constantly monitors road conditions and vehicle status and automatically adjusts engine output and braking whenever the driver is about to lose control. It integrates the ABS, active rollover protection, anti-slip regulation and brake force assist.

BRAKE ASSIST SYSTEM

BAS automatically activates full braking in an emergency to reduce the vehicle's braking distance to help avoid an accident.

AIRBAGS

Musso has 6 airbags for the greatest possible protection in the event of a sudden stop.

1. Driver's seat airbag
2. Passenger's seat airbag
3. Side curtain airbags in 1st row x2
4. Curtain airbags x2

ISOFIX

Musso has an Isofix point on both outer rear seats, ensuring ultimate safety for children travelling in the rear.

WARRANTY

Even with a sturdy and reliable pick-up that owns the road, you still want the peace of mind of a competitive warranty. That's why Musso isn't just good, it's the best. You're covered for 7 years or 150,000 miles – whichever comes first.

That's over 20,000 miles per year for the length of the warranty. We're calling it unmatched – and it is.

You'll feel confident on the road, and confident with the best warranty in the UK. It's win-win.

MUSO EX

- 17" alloy wheels
- DAB radio with Bluetooth connectivity
- 6 airbags
- Full size spare tyre
- Manual air conditioning
- Power windows
- Remote central locking
- Smart-key system with push button start
- Rain sensing wipers
- Automatic headlight control

MUSO REBEL

- As EX +
- 18" alloy wheels
- Black & silver roof rails
- Apple CarPlay & Google Android Auto
- 8" smart audio screen with rear-view camera & Bluetooth connectivity
