TIVOLI
XLV

SSANGYONG

STYLISH & VERSATILE

Tivoli is stylish and practical, fun as well as versatile.

If you're looking for a small SUV but don't want to compromise on load capacity Tivoli is the answer.

Whatever you need on your journey – bikes, golf clubs or luggage for five, Tivoli has the

answer. It is the vehicle for those who want to downsize without compromise.

EXTERIOR STYLING

A stylish proposition whether on the street or off the road, Tivoli's elegant shape features a swept back 'floating' roofline reminiscent of premium 4x4's.

Finished with details such as projection headlamps, stylish LED positioning lights front and rear, also with LED repeaters on the door mirrors (ELX) Tivoli stands out from the crowd.

SPACIOUS & REFINED

Tivoli redefines the standard for interior style and trim for a small crossover. A chunky D-cut steering wheel feels and looks good, the fascia is ergonomic, modern and purposeful.

The XLV has heated front seats, with the EX, ELX and XLV models offering leather trim as standard – something not matched by Tivoli's peers. This gives Tivoli an interior usually found in vehicles at twice the price and makes travelling in a Tivoli very special indeed. Tivoli doesn't scrimp on space either – thanks to its generous proportions, Tivoli offers plenty of room for the driver and front seat passenger, with three adults able to travel comfortably in the rear.

AN INTERIOR FULL OF FEATURES

SMART INSTRUMENT CLUSTER

Tivoli features a smart cluster that allows you to change its colour depending on your mood!

There's also a sophisticated trip computer on all Tivolis that shows tyre pressures, distance to empty, distance travelled and outside temperature.

INFOTAINMENT

Tivoli SE comes with a double DIN radio that is Bluetooth and iPod compatible, while the highly specified unit in the XLV controls radio, audio via USB or Bluetooth connection, and your mobile phone via Bluetooth.

A 7" touch screen is a feature of the radio in EX models, and ELX and XLV models also come with full European TomTom navigation.

EX, ELX and XLV models are also fitted with a rear view camera.

AIR CONDITIONING

Tivoli SE is equipped with manually controlled air conditioning to keep you cool whatever the weather.

EX, ELX and XLV models feature a dual-zone air conditioning system which allows driver and passenger to set individual temperatures – and there's even a memory feature for next time you drive your Tivoli!

SMART STEERING

Allows you to match steering effort to your driving style.

COMFORT

The steering wheel turns with less effort than when in Normal mode, good for use when parking, backing up or going forward at low speed.

NORMAL

The steering wheel effort is ideal for general driving.

SPORT

The steering wheel turns with greater effort than Normal mode, boosting steering responsiveness at high speed to ensure maximum operational control and precision.

TIVOLI SPACE & STORAGE

Tivoli is as practical as it is elegant.

There's room for the essentials of life with a large flexible loadspace that adapts to suit your requirements.

Rear loadspace is amongst the best in class at 423 -720 litres, and Tivoli's width and height mean that it could accommodate three golf bags, and more.

TIVOLI XLV SPACE & STORAGE

The XLV model offers even greater carrying capacity and flexibility with the second-row seats able to be folded either 60:40 or fully flat, maximising luggage space. The cargo bay on this model comes with a luggage cover for security.

LUGGAGE COVER

REAR SEATS RECLINE 32.5°

TECHNICAL

A choice of ultra-modern petrol or diesel 1.6 litre engines, 6 speed manual or Aisin 6 speed automatic transmissions means that there's a Tivoli for every requirement.

AISIN
6 SPEED
GEARBOX

TRANSMISSIONS

"Tivoli has a choice of two modern and efficient 6 speed gearboxes – manual and automatic. Matched with our new 1.6 litre petrol and diesel engines which complement your driving style with smooth shifts and well-chosen gear ratios. The automatic gearbox is sourced from Japanese supplier Aisin and is equipped with three alternative shift strategies – eco, power and winter to suit your driving needs."

1.6 LITRE PETROL

- 1597cc
- 128PS @ 6,000 rpm
- 160Nm @ 4,600 rpm
- Combined mpg: 44.1 (manual), 39.2 (auto)
- CO2: 149 (manual), 167 (auto)

1.6 LITRE DIESEL

- 1597cc
- 115PS @ 3,400 rpm
- 300Nm @ 1,500 rpm
- Combined mpg (2WD): 62.8 (manual), 47.9 (auto)
- Combined mpg (4x4): 57.6 (manual), 44.8 (auto)
- CO2 (2WD): 117 (manual), 154 (auto)
- CO2 (4x4): 127 (manual), 164 (auto)

SMART SAFETY

FORWARD COLLISION WARNING AND AUTONOMOUS EMERGENCY BRAKING

Evaluating data from the vehicle's on board camera, Forward Collision Warning (FCW) can detect a potential collision with a vehicle, pedestrian or obstacle. If a collision appears imminent FCW will warn the driver, and if there is insufficient response Autonomous Emergency Braking (AEB) will intervene with appropriate braking force to stop the vehicle or minimise damage.

LANE DEPARTURE WARNING AND LANE KEEPING ASSIST

Lane Departure Warning (LDW) is designed to alert the driver that the vehicle is about to deviate from a traffic lane. Lane Keeping Assist (LKA) then helps the car stay toward the centre of the lane by applying a small amount of counter-steering force.

TRAFFIC SIGN RECOGNITION (TSR)

The system recognises speed limit signs and provides the driver with an on-screen warning. (EU region only)

HIGH BEAM ASSIST (HBA)

Detects oncoming vehicles and lowers the high beams. The system also tracks the taillights of vehicles in front and controls the high beams accordingly.

PASSIVE SAFETY

HIGH STRENGTH STEEL CONSTRUCTION

NCAP 4 STAR RATED

STRENGTH

The basis of a vehicle's safety is its monocoque structure – both how it's made and how it responds on impact. SsangYong's engineers have made extensive use of high strength steel to construct a rigid passenger cell.

ISOFIX

Tivoli is equipped with ISOFIX child seat mountings to the rear outer seats to allow a firm and rigid attachment of child seats.

SEAT BELT PRE-TENSIONERS

In the event of a collision, the pre-tensioner immediately tightens the seatbelt over the chest and lap, ensuring the occupant is in the best possible restrained position if the airbags are deployed.

AIRBAGS

Tivoli is equipped with 7 airbags for maximum passenger protection on impact – the most in its class. These include a driver's knee protection airbag – a feature normally found in prestige vehicles.

ACTIVE SAFETY

Tivoli is equipped with the latest technology to assist the driver to avoid accidents.

T P M S

Tivoli has tyre pressure monitoring built into its electronics. Monitored through the trip computer each tyre is continually checked for pressure with the driver immediately warned of unsafe pressures.

E B D — A B S

ELECTRONIC BRAKEFORCE DISTRIBUTION
ANTI-LOCK BRAKE SYSTEM

Brake force is distributed appropriately to the front and rear wheels according to the vehicular load of persons and/or cargo.

B A S

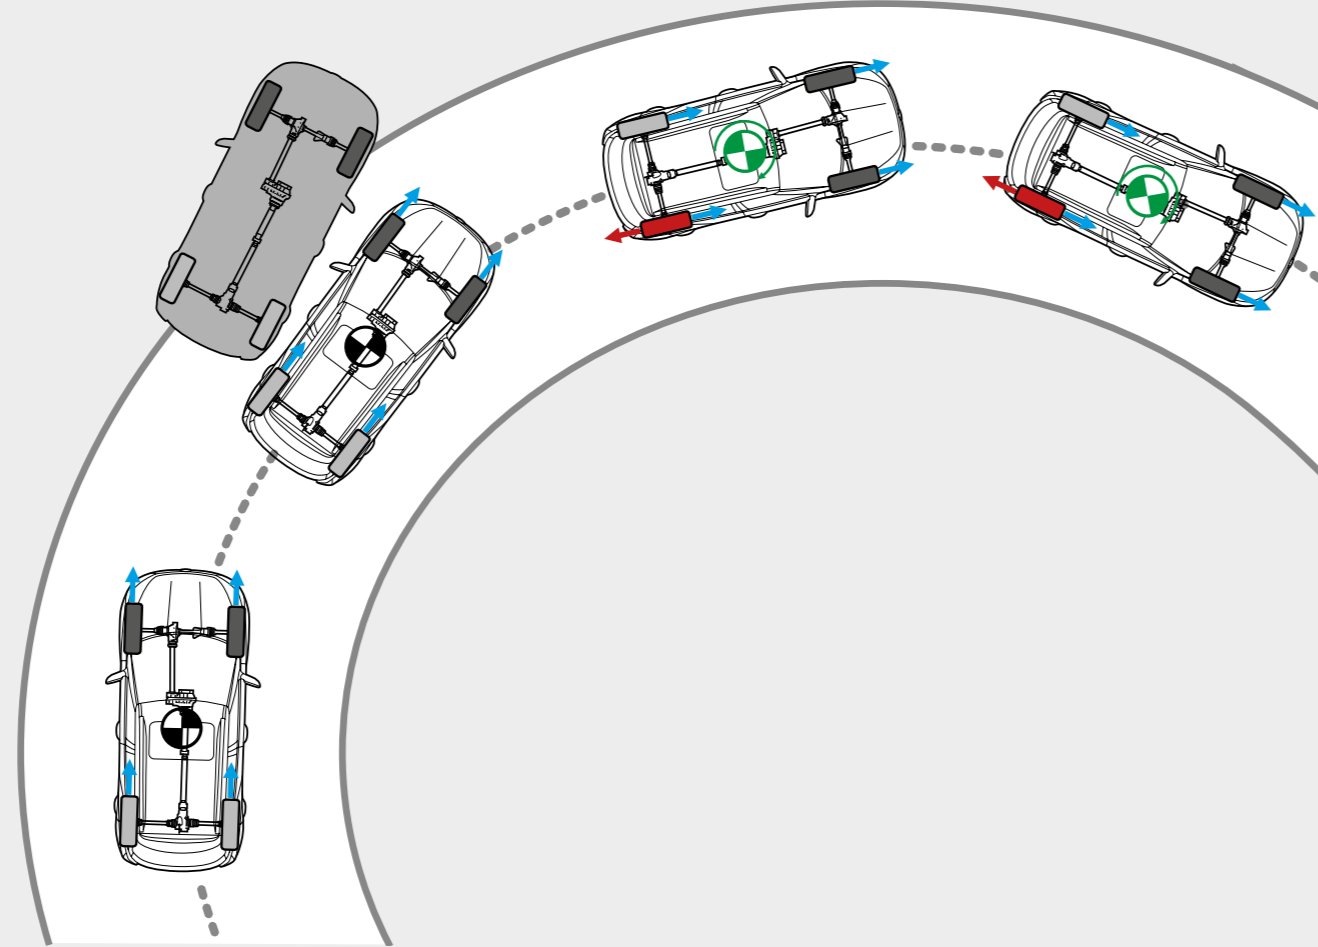

BRAKE ASSIST SYSTEM

This electronically controlled system automatically initiates full braking in an emergency to reduce the vehicle's braking distance and to help avoid an accident.

E S P

ELECTRONIC STABILITY PROGRAMME

The electronic stability programme monitors road conditions and vehicular status constantly, adjusting engine output and braking whenever the driver is about to lose control. The ESP integrates the anti-lock brake system, active rollover protection, anti-slip regulation and brake-force assist to improve Tivoli's intervention capabilities.

SMART KEY SYSTEM

Tivoli ELX features a push button starting system which allows the car to be started without taking the key from your pocket or bag.

PARKING SENSOR

EX models are fitted with a rear view camera, whilst ELX models are also fitted with front and rear parking sensors that detect obstacles and alert the driver of their presence.

The new Worldwide Harmonised Light Vehicle Test Procedure (WLTP) standard of measuring fuel consumption and CO2 emissions in passenger cars is being introduced from Jan 2019. It is a more accurate measure of a vehicles performance than the outgoing NEDC (New European driving cycle) system which remains in place as a measure of CO2 for taxation purposes until April 2020. For more information see our website. A guide to fuel economy and CO2 emissions which contains data for all new passenger car models is available at any point of sale free of charge. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel consumption and CO2 emissions. CO2 is the main greenhouse gas responsible for global warming.
